**CERTIFICATE OF APPRECIATION
FOR
COMMUNITY SERVICE**

On behalf of the City of Rutland and its citizens we would like to express our deep appreciation for the many years of assistance in the conduct of elections provided by the following businesses, agencies and individuals.

CENTRAL VERMONT PUBLIC SERVICE CORPORATION

For the use of facilities as a polling place and especially for many years of providing computer services, free of charge, for the tabulation of punch card ballots. The courtesy and cooperation of all CVPS personnel involved in our election activities was commendable.

MR. ROBERT CANNEY

For many years of computer programming services and assistance with ballot preparation and election equipment preparation.

MRS. PATRICIA PAYNE

For assistance in election preparation and election equipment maintenance.

WARD OFFICIALS

For many years of conscientious service to the voters of their wards. For the many hours and long days put into election training and operation of the several polling places. We regret that the recent changes in ward lines resulted in losing the services of many long-time dedicated ward officials.

**MOUNT SAINT JOSEPH ACADEMY
CHRIST THE KING SCHOOL
RUTLAND CITY SCHOOL DEPARTMENT
RUTLAND CITY RECREATION DEPARTMENT**

For the inconveniences suffered and the cooperative spirit of administrative and custodial personnel in permitting and assisting in the use of their facilities as polling places.

POSTING LOCATION

For the assistance and cooperation of the following Rutland City businesses in permitting us to post election warnings, checklists, notices and sample ballots in accordance with State Law:

Courcelle's Flowers, Percy P. Wood Store, Garrow's Market, Creed's Market, Midway Thrifti, Julianna's Market, East Street Grocery, Rutland Pharmacy, Bellomo's Market, Carrigan's Market, Mr. C's Market, Lindholm Sports, Helene's Variety, Park Pharmacy, California Fruit Market, Grove Street Market, Bruno's Beer King, The Party Store, State Cut Rate, H.A. Eddy Oil Market, Dart Mini Mart, Dart Mini Mart II.

John J. Daley, Mayor
Rosemary F. Finley, City Clerk

Isabel E. Flory	School Department
Lloyd A. Kelley	School Department
Dominic A. Paul	School Department
Shirley D. Smith	School Department

The Mayor's Message

TO THE CITIZENS OF RUTLAND:

Fiscal Year 1985-86 was in many ways a new beginning for the City of Rutland.

Following the tragic loss of Chief Barron in late 1984, I appointed Lieutenant Gerald Lloyd to fill this critical position on a trial basis. After many months of outstanding leadership, I appointed "Giggy" Lloyd to the lifetime position of Rutland City Fire Chief, and know that the long tradition of excellence established by chiefs Koltonski and Barron will be continued under Chief Lloyd's stewardship.

Following the retirement of Police Chief Spoon, the search for a new leader in that department was undertaken. Paul Benson was the search committee's first choice, and I was pleased to appoint Mr. Benson Rutland City Chief of Police on October 28th. Since his appointment, Chief Benson's performance under difficult circumstances has been exemplary.

The position of Commissioner of Public Works has been a difficult one to fill. The efforts of Warren Connor, City Engineer, as interim commissioner must be recognized, for without Mr. Connor's 'extra effort', the long search for a new commissioner would not have been possible. That search resulted in the appointment of Gail Tirre, and judging from her results, our patience in locating Commissioner Tirre has been well rewarded.

The position of City Attorney is one upon which I rely heavily. I am very pleased that Henry Brislin was willing to accept this appointment. Henry's previous experience as a member of the Board of Aldermen is particularly helpful.

Finally, the appointment of Jeffrey Wennberg as Planning Coordinator has provided a much-needed link between the Planning Commission, the Board of Aldermen and the Mayor's office.

The challenges which lie ahead will only be met if the city has innovative and talented managers. I believe these individuals, along with our other department heads and elected officials, give the City a first-rate management team.

John J. Daley, Mayor

BOARD OF ALDERMEN

Seated: Linda Welch, Patricia Donnelly, Rosemary Finley, City Clerk.
John Cassarino, Pres. Hayden Bride, Thomas Donahue, Barry Keefe, Frank McCormack,
Thomas Macaulay, Sigismund Wysolmerski, Laurent LaMontagne
Absent from Photo: Robert Stafford

BOARD OF ALDERMEN

AUDIT REPORT

Reports of the audits conducted by the City of Rutland and the Rutland City School Department are included in the City of Rutland Financial Statement which is a separate document and is available from the Office of the City Treasurer.

OFFICE OF CITY ASSESSORS

To the Honorable City Council and
the Citizens of Rutland, Vermont

It is my pleasure to submit the annual report of the Assessor's Office for the fiscal year ending June 30, 1986.

This has been a busy year for our office. First of all, we have started the reappraisal of the city. A consultant and three data appraisers were hired to assist us in doing this task. As of this date, the data collection in one section of the city has been almost completed.

Secondly, there was a considerable amount of new construction here in the city: the Comfort Inn on Allen Street, the First Vermont Bank on West Street, Vermont National Bank on West Street, East Creek Center on Belden Road, the Vicon Plant on West Street and Country Grove Condominiums on Grove Street to mention a few. Due to all of this construction, the Grand List increased considerably for an off year.

I would like to take this opportunity to thank the Treasurer's Office, City Clerk's Office, the Building Inspector and Mary Bostwick for their cooperation and assistance given this office.

Respectfully submitted,
Charles M. Franzoni
Assessor

BUILDING INSPECTOR & ZONING ADMINISTRATOR

Honorable City Council:

I am pleased to submit to you the Annual Report of the activities of the Building Inspector/Zoning Administrator's office for the Fiscal Year ending June 30, 1986.

INSPECTIONS PERFORMED:

237 Business and Commercial
235 Complaints and Violations
1117 Certificates of Occupancy

John J. Kollmer,
Bldg. Insp./Zoning Admr.

OFFICE OF THE CITY ATTORNEY

Honorable City Council
City Hall
Rutland, VT 05701

Ladies & Gentlemen:

This report covers the time period from my appointment as City Attorney which became effective November 2, 1985 until the end of the fiscal year June 30, 1986.

Much of that time was spent by myself upon first assuming office was in bringing myself up to date with as much as I could the files that were pending and the matters pending before all the Departments of the City.

I have been involved in litigation for the City including actions before the Vermont Supreme Court, the Federal District Court, the Second Circuit Court of Appeals, and the Superior Court. While many of the negligence law suits against the City are handled by insurance counsel, this office does refer these to counsel and attempts whenever possible to keep up to date on them. Further, we have been handling on an active basis actions involving employees and former employees and contract actions.

One of the largest areas of litigation early on in my term involved the VICON Recovery Systems Plant in Rutland. The City brought an action in an attempt to rescind the Building Permit on VICON, and while that action did not result in a rescission of the Building Permit the legal actions authorized and encouraged by the Board of Aldermen attracted the attention of State Authorities as well as many others and seems to have brought about some actions which can help rectify problems that had been anticipated.

Besides having a new City Attorney, the City has also other new Department Heads including a new Commissioner of Public Works and a new Police Chief. Both of these people are new to the City and the legal office has tried to work hand in hand with them in an effort to make their transition into City Government as smooth as possible.

Commissioner of Public Works and the Public Works Department has been very active in regard to Union matters, especially grievances and arbitration and a pending law suit from several years ago. Also, there was action before the Board of Civil Authority involving both the City Attorney and the Assistant City Attorney/Grand Juror, and this resulted in hearings and resolutions of those actions.

While I was not City Attorney at the time that a criminal action was commenced against members of the City Police Department, we have throughout my term tried to keep up to date with that action and to protect the City and to keep as best as possible an impartial attitude until resolution of the matter by the Criminal Courts. The members have been suspended pursuant to consultations with the Legal Department and the Mayor, and the Legal Department will be involved with this until a resolution of the matter is finalized.

Relations with the Town of Rutland have become a very important part of the activities of the City Attorney's office, and in fact the Sewer Contracts between the Town and the City have been the focus of many meetings of Committees of the Board, and have in fact resulted in litigation involving the City. While that litigation is still pending, the City is taking an active role in that and in fact has brought a Counter-Claim for what it feels its damages are.

There have also been requests for extensions to the original Water Contract of 1974, and the City is negotiating several sub-systems in regard to the Water Contract with the Town and the City Attorney's office has been active in preparation of and negotiation of those sub-system contracts and advising the Board of Aldermen in regard to those.

The Alpine Pipeline has completed its construction, and it's now discharging sewage into the City system, and the City is still negotiating through the Board of Aldermen with the guidance and advice of the City Attorney's office, the Maintenance Agreement in regard to the Alpine Pipeline. It is anticipated that once this Agreement is finalized, it will then become the model for other Maintenance Agreements that may occur especially in regard to the RIDC Project and the Country Grove Project.

Development in the region has been expanding greatly. The City Attorney's office is involved with Act 250 Hearings in regard to the Rutland Mall expansion, and in conjunction with that has hired outside counsel. The City Attorney has also been directly involved in reviewing other projects both within the City and outside the City, and has been actively involved in the continuing efforts in regard to developing the Howe Scale property.

Another new Department Head that was employed by the City in the past year has been the new City Planner/Assistant Mayor, Jeffrey Wennberg. His office and the City Attorney's office have tried to work together on numerous projects in order to as smoothly as possible coordinate our efforts for the betterment of the City.

My first partial year as City Attorney has been very informative and educational, and extremely busy. While I am employed for a set number of hours a week, at no time have I been confined to working that number of hours, and in fact have been putting in considerably more time. It is at times difficult to balance all of the various needs of the City, being those of the Department Heads, the Mayor, the Board of Aldermen, and the other various Boards and Commissions, especially where those interests may at times appear to diverge. However, efforts have been made to do so within the time constraints allowed and also outside those time constraints and it is hoped that the effort has been satisfactory.

Henry C. Brislin
City Attorney

CITY CLERK

To the Honorable City Council
and Citizens of the City of Rutland

The following is the Annual Report for the Office of City Clerk for the year ending June 30, 1986.

Meetings and Minutes

Minutes of the following meetings were recorded:

Board of Aldermen	37
Board of Finance	33
Board of Civil Authority/Elections	7
Board of Highway Commissioners	7
Board of Tax Abatement	6
License Board	3
City Council	3

Tax Appeals

The Board of Civil Authority comprised of the Aldermen, the Justices of the Peace and the City Clerk heard and rendered decisions on 35 tax appeals.

Land Records

Ten books (8,594 pages) of land records were recorded and microfilmed during the year.

Licenses and Permits

The following licenses have been processed by this office to date for the current license year:

Beverage Licenses	108
First Class — 64	
Second Class — 44	
Business Licenses	245
Dog Licenses	1,293
Entertainment permits	20
Hunting & Fishing (CY 1985)	636
Green Mountain Passports	68

Elections

Three elections were held during the year: a Special Election on November 26, 1985; the Annual City Election on March 4, 1986, and a Special Election on May 20, 1986.

Ward Line Changes: In October 1985, the Board of Aldermen, by Ordinance, changed the lines of the Wards of the City to correspond with the State Representative District lines. The effect of this action was that the number of Wards was reduced from nine to five, thereby reducing the number of polling places and personnel needed to conduct elections.

New Election Equipment: The City purchased Optech optical scanning election equipment to replace the outdated Seiscor punch card equipment which was in use for over twenty years. The Optech machines are tabulating machines which read paper ballots. The voter marks his/her votes on a paper ballot and inserts the ballot into the Optech machine which reads it as it is inserted. As soon as the polls close and the absentee ballots are inserted into the machine, the Ward Clerk pushes a button

and the machine prints out the election results. The new equipment enables us to announce unofficial election results within an hour of the closing of the polls. This is a great improvement, time-wise, over the old equipment which required Ward Officials to count absentee ballots by hand and then to hand-carry their voted ballots to the CVPS Computer Facility to be tabulated by the computer. Formerly it was often late at night before results could be announced. At the time of this report, the new equipment has been used for three elections and has proven to be fast and accurate. It has been well received by Ward officials and voters.

I would like to thank Mayor Daley, the Board of Aldermen, all City Department Heads and employees, especially the staff of the City Clerk's Office for their continued support and assistance.

Rosemary F. Finley
City Clerk

OFFICE OF THE CITY CLERK
REPORT OF VITAL STATISTICS
For the Calendar Year 1985

The record of births, marriages and deaths filed in this office during the year 1985 was as follows:

Total number of births registered in 1985	829
Total number of deaths registered in 1985	570
Total number of marriages registered in 1985	238

(See statistics below for vital statistics comparison.) (Due to the fact that vital statistics records are reported to the State for the calendar years, we are unable to report for the fiscal year covered by this report.)

CITY TREASURER

To the Honorable City Council
Rutland, Vermont

Ladies & Gentlemen:

Presented under a separate cover is the 1986 financial report, setting forth the financial position of the City of Rutland at the close of the fiscal year ended June 30, 1986.

All debt requirements of the City were met promptly during the year. Serial bonds totaling \$190,000.00 were retired. Combined interest payments on the bonded debt amounted to \$163,193.82.

The General Fund is financed by revenues from general property taxes, licenses, permits, fines, revenues from other agencies, charges for current services, and other miscellaneous revenues. During the fiscal year ended June 30, 1986, revenues actually received were in excess of expenditures in the amount of \$204,330.00. Combined with a beginning Fund Balance, this resulted in a Fund Balance (Surplus) totaling \$371,633.00.

Also during fiscal year 1986, the City received \$564,609.00 in Revenue Sharing Funds from the Federal Government. The interest earned on those funds amounted to \$21,220.00.

In reference to the School Fund, normally known in this transmittal, financial data was unavailable at time of printing, due to the audit being conducted was not completed at this time, but will be included in the financial report.

Respectfully submitted,
R. J. Graves
City Treasurer

CIVIL DEFENSE/ EMERGENCY MANAGEMENT

To the Honorable City Council
and Citizens of Rutland:

Ladies and Gentlemen:

This department was activated several times during the past year for various emergencies, the most notable being hurricane "Gloria" on September 27. A briefing was held for all department heads, school officials, utility representatives and radio station personnel at 11:00 AM. Fortunately, the storm veered to the east of us and we were spared what could have been a serious situation. Preparing for this event showed the close cooperation of all services to handle this storm.

Two Test Exercises involving the Police and Fire Departments, Emergency Medical Services and hospital personnel were conducted this past year by the Emergency Management Office. There was also assistance through the State Emergency Medical Office staff.

The first Exercise was conducted at Beverly Manor, simulating a nursing home emergency. The second was at Carris Reels, in Rutland Town, simulating a railroad hazardous materials incident. Both Exercises were conducted to test responses to, and the handling of, mass casualties both at the scene and the Rutland Regional Medical Center. The experience gained from these Exercises proved beneficial to all emergency services.

I had the opportunity to appear at several Service Club meetings to speak about the Emergency Management Programs.

During the past year the State Emergency Management staff conducted various training programs and conferences which were attended by employees of the City Police and Fire Departments, in addition to personnel from Rutland Mental Health and Rutland Regional Ambulance Service. Some were week long and others were weekend courses.

I also attended several weekend seminars dealing with various phases of Emergency Management.

I am very pleased at the response to these programs and will be coordinating attendance at future Emergency Management programs.

The School Crossing Guard Program was completed for the school year with a total of fourteen posts. Again, I worked very closely with the State Police in coordinating training for the School Safety Patrol Program. In cooperation with Sergeant James Freese, a schedule was set up where all the elementary schools were visited and a short training program was conducted.

The City Fuel Program was again administered by this office this past year and, with the donations from the City Ministerial Council of Churches that funded this Program, assistance was rendered to many City needy families for the purchase of fuel oil. This past winter, being a little colder than past winters, more people required assistance from this Fund.

As Director of the City Safety Program, on-going departmental inspections and meetings were held throughout the past year and we are in the process of preparing Safety Rules and Regulations which will be implemented in the very near future. All department heads and employees were given the opportunity in formulating these Rules and Regulations.

In closing I would like to thank Mayor Daley, the Honorable Board of Aldermen, City Officials and employees, Emergency Management volunteers, the State Emergency Management staff and the news media for their cooperation and assistance in helping to make this a successful year for the Emergency Management Office.

Respectfully submitted,
Aldo M. Manfredi,
Director—Emergency Management

CONSTABLE AND TAX COLLECTOR

To the Honorable City Council:

As City Constable and Tax Collector of the City of Rutland, I am pleased to submit for your consideration the financial report of this office for the period July 1st, 1985 to June 30, 1986.

Real Estate and personal property taxes collected during the period amounted to \$608,162.73.

General bills which include water and sewer installations done by the City, sidewalk and curb improvements, tree removals and other expenses totaled \$7,735.98.

Water and sewer assessments amounted to \$75,378.98.

The cumulative total for all monies collected by this office for this period was \$691,277.69.

May I take this opportunity to thank sincerely the Honorable Mayor, City Attorney, other City officials and employees for their cooperative efforts during the past year.

Respectfully submitted,
Vernon Richards,
Constable and Tax Collector

FIRE DEPARTMENT

ANNUAL REPORT

To The Honorable City Council and Citizens of Rutland:

I am pleased to submit herewith the Annual Report of the activities of the Rutland City Fire Department. During the past year, this department expanded its fire prevention program with the appointment of a full time Fire Prevention Officer whose primary function is to conduct daily safety inspections in the City of Rutland.

A Fire Pre-plan Program has also been implemented during the past year. This program lays out in advance plans as to how an emergency should be addressed should one take place in a high occupancy or high hazard building located in the City of Rutland.

During the year, the department continued to provide its members with the opportunity to increase their proficiency by attending various fire schools. A total of 16 department members attended either the National Fire Academy in Emmitsburg, Maryland, the Regional Fire School at Castleton State College or the Advanced Life Support classes held at the Rutland Regional Medical Center. We are now in the process of organizing a Hazardous Material Response team and this unit will be placed on line as soon as the department personnel have been trained in this field.

A contract was awarded to Gruman Emergency Products to construct a 102 ft. Quint Aerial Platform Tower. Delivery of this unit is expected by late March or early April 1987. This vehicle will be dedicated to the memory of the late Chief Richard M. Barron in recognition of the many years of faithful service to the City of Rutland.

Your Fire Department responded to 778 fire calls, an increase of 113 calls. Also 24 hazardous materials incidents. Rescue 8 responded to 1278 rescue/paramedic calls and the department responded to 299 citizen assistance calls. Despite an increase in calls, fire losses have declined as a direct result of the fire prevention program pre-plan inspections and the installation of smoke detectors.

We responded to 3 general alarms and for the sixth consecutive year and there were no fire related deaths or serious fire injuries in our community.

I wish to thank the members of this department, Mayor John Daley, members of City Council and other department heads for their cooperation and assistance during the past year.

Respectfully submitted,
Gerald T. Lloyd, Fire Chief

GRAND JUROR

To The Honorable City Council and
Citizens of the City of Rutland

It is my pleasure to submit the Annual Report of the City Grand Juror's Office for fiscal year ending June 30, 1986.

During the past year, this office has been responsible for the collection of the fine revenues in the amount of \$33,041.60. In addition, the combined efforts of the Police Department and this office collected \$50,334.00 for parking violation fines.

This office has worked closely with the Police Department, Mayor's Office, Building Inspector's Office, Department of Public Works, Fire Department, City Attorney and the Board Of Aldermen. An atmosphere of cooperation has been created at City Hall which benefits all of the citizens of the City of Rutland.

Respectfully Submitted,

John C. Holler

City Grand Juror

HEALTH OFFICER

To the Honorable City Council and
The Citizens of Rutland, Vermont

I hereby submit the annual report of the Health Officer for the fiscal year ending June 30, 1986.

With the construction of the solid waste disposal facility (VICON), the City Board of Health developed increasing involvement. Our recommendations were submitted to the Board of Aldermen. Since, with new controversy evolving, we have continued to meet and stay current with the issues.

In addition the Health Officer has maintained supervision in usual issues regarding nuisance complaints, ordinance violations, public water testing, fluoridation, and other problems with potential to transmit communicable disease or pose health problems to the citizens.

A monthly report of activities is submitted to the Mayor and City Council.

My appreciation to others in City Government for the cooperation especially the Building Inspector and the Water Treatment Manager.

Respectfully submitted,
William A. O'Rourke, Jr., M.D.
Health Officer

MILK INSPECTOR

To the Honorable City Council and
The Citizens of Rutland, Vermont

I respectfully submit the annual report of the Milk Inspector for the fiscal year ending June 30, 1986.

The Milk Inspector is responsible for issuing licenses for milk products distributed in the city and indirectly with the storage of these products by wholesale and retail distributors. Because milk producers are outside the city limits we have been fortunate to obtain the correspondence of the director of the Dairy Division of the State Department of Agriculture and receive testing reports on milk products that will be distributed for retail sale. No problems have been detected over the past year.

Disposition is complementary to the office of the Health Officer and a monthly report is submitted to the Mayor and City Council.

Respectfully submitted,
William A. O'Rourke, Jr., M.D.
Milk Inspector

RUTLAND CITY PLANNING COMMISSION

To the Honorable City Council and
Citizens of the City of Rutland

The Rutland City Planning Commission has worked all year drafting a new zoning map, zoning regulations, and subdivision regulations. The Municipal Development Plan was approved by the Board of Aldermen on 12/16/85 and became law January 6, 1986.

Lengthy discussions have taken place with State Highway officials regarding a proposed Southeast Bypass for Rutland City.

Investigations were made on the new Solid Waste Disposal Plant.

A proposed Satellite Dish Ordinance has been submitted to the Board of Aldermen for approval.

Respectfully submitted,
George W. Clewes, Chairman

BOARD OF ZONING ADJUSTMENT

To the Honorable City Council and
Citizens of the City of Rutland

During the period of July 1985 through June 30, 1986, the Board of Zoning Adjustment conducted public hearings and rendered decisions on thirty-one requests for zoning variance.

Respectfully submitted,
William H. Foley, Sr., Chairman

PLANNING COORDINATOR

During the last year, much effort was put into the proposed Howe Scale development. Although no tangible signs of progress are yet apparent, the negotiations to redevelop the property into a shopping center are progressing. The obstacles to this development are substantial. It is hoped that the negotiations will be completed in 1986-87 and that the new shopping center will be open for business before the end of the decade.

Another responsibility of the Planning Coordinator is to provide technical support to the Mayor, Board of Aldermen and Planning Commission. In filling that role, analyses and reports showing the reasons for a wide variety of problems and challenges have been presented.

The most promising development of the last year is the commencement of the Rutland West Neighborhood Housings Services project. This non-profit corporation represents a cooperative effort on behalf of the communities of Rutland City, West Rutland, Castleton and Fair Haven. The purpose of the program is to provide low-interest loans and technical assistance to residents of specific neighborhoods to encourage reinvestment in their homes. In addition, RWNHS hopes to forge a partnership between the residents, business community and governments to encourage reinvestment in these neighborhoods. The Rutland City target neighborhood is roughly bounded by Grove Street to the east, East Creek to the west, State Street to the south and Crescent Street to the north.

I would like to thank the Mayor, Board of Aldermen, City Attorney and the staff of the Regional Commission for all the support they have given me in my first year as Rutland City Planning Coordinator.

Respectfully Submitted,
Jeffrey Wennberg
Planning Coordinator

POLICE DEPARTMENT

TO THE HONORABLE CITY COUNCIL
AND THE CITIZENS OF THE CITY OF RUTLAND

I respectfully submit the Annual Report of the Police Department for the fiscal year ending June 30, 1986.

The main goal of this Administration has been to place and obtain accountability at all levels within the Agency. To promote and maintain uniformity and equality within every order, policy and procedure established and implemented. A great deal of credit must go to the men and women of the Agency who have carried out the new policies and procedures in an admirable manner.

In our efforts to be accountable to the needs of the community numerous procedures and programs have been instituted to either inform of crime prevention or detection measures. A great deal of emphasis has been placed on citizens involvement in criminal enforcement measures.

Agency Administrative and Patrol Manuals have been created to assure for uniformity and equality within the management of the Police Department.

The Department has grown to 42 sworn members. The additional manpower has enabled the Agency to concentrate on serious criminal investigations, drug enforcement, etc.

On behalf of the Department, I want to express our sincere appreciation for the assistance that has been extended to this Agency by the service organizations of the City of Rutland. Also to the various law enforcement Agencies who have worked so harmoniously with this Department.

Deepest appreciation is extended to the Mayor, the Honorable Board of Aldermen, and other Department Heads and personnel for their assistance and show of support this past year.

Sincerely,
Paul R. Benson
Chief of Police

ANIMAL CONTROL OFFICER

To The Honorable City Council
Animal Control Officer's Report
From July 1, 1985 thru June 30, 1986

There was a total of 1,384 calls of service handled by the Animal Control Officer for the year ending June of 1986.

Total animals handled were 803 and taken to the Humane Society.

Total Dogs apprehended was 98

Total fines issued was 30

Total Miles traveled was 13,500.

The Animal Control Officer has dealt with cruelty complaints, lost and found dogs and cats, barking dogs, animals turned over by owners and numerous calls on opossums, raccoons, dogs, cats, birds, kittens, skunks, etc. Unlicensed dog owners are being prosecuted as well as Leash Law Violations through the Ordinance ticket system.

Since becoming the City Animal Control Officer, it has been my philosophy that the pet owner must be made responsible for his and her pet — its whereabouts at all times, its activities, licensing, control and offspring. The majority of Rutland residents are responsible pet owners, but there are still some that need to be educated that the free-roaming animal can cause traffic accidents, spread disease, unprovoked dog bites, be poisoned, cause property damage, and law suits against the owners. With the help of City residents, we can eliminate the problems caused by dogs and cats.

My thanks to the Rutland County Humane Society and other City Officials for their help.

Craig Petrie
Animal Control Officer

PUBLIC WORKS DEPARTMENT

To The Honorable City Council
and the Citizens of Rutland:

The Fiscal Year ending June 30, 1986 was one of dynamic development for your Department of Public Works. Warren E. Conner, City Engineer, once again stepped in to serve in a dual role as Commissioner of Public Works following the resignation of the incumbent. As usual he did an exceptional job of continuing the vital role fulfilled by Public Works while meeting the myriad demands placed on the Engineer. When I became Commissioner in early December 1985 Warren Conner provided a smooth transition and he continues to furnish essential input and support for Departmental operations.

The winter was stormy, as expected in Rutland, but the Department met each storm head-on and won. We learned how to "do more with less" as the snow and ice control effort on the streets and sidewalks became more responsive, better planned and executed, and more conserving of materials, fuel and manpower. We began to identify opportunities for better ways to organize our resources to get the job done, as well as other opportunities to strengthen the organization through selection of new managers and supervisors with the potential of revitalizing the Department. This movement toward organizational strength is discussed in more detail in reports from divisions which follow this overall report.

Early in 1986 we instituted a system of response to emergency after-hour requirements which became immensely successful. Citizen requests for emergency response were directed to the Police Dispatcher who had only to make one call to a designated on-call Public Works supervisor. The on-call supervisor then responded immediately, took all action necessary in the situation, and followed up with written reports to me. Our extensive record of successfully completed responses is a source of pride for the entire Department.

Also early in the calendar year we began to move toward a stronger organization by splitting out the sewer maintenance function from the unrelated streets maintenance function. Other such adjustments included establishment of an equipment management function to serve the entire Department and consolidation of the wastewater collection and treatment functions into one division. Physical plant changes related to these improvements include the planned relocation of the wastewater collection crew to the site of the new wastewater treatment plant as well as the clean-up, re-surfacing, and reallocation of space at the Spruce Street garage. In conjunction with the Spruce Street garage "hoe-out" we operated an auction of salvage and excess equipment which brought a net cash flow to the City of \$116,089, while freeing valuable space for storage and operations. Other space management improvements were the unplanned move of the water distribution maintenance crew from rented quarters on Post Street into part of the space on Spruce Street and rearrangement of the Streets Division operational area and vehicle maintenance area at Spruce Street.

In the spring of the year we planned a coordinated summer work program, integrating the efforts of the water distribution system crews, sewer system crews, street and sidewalk crews, and the several contractors working in the city. The fruits of that planning effort began to appear in early summer as we methodically worked through the City, section by section, getting the most out of our resources and time. Simultaneously we continued to handle the expected level of emergency requirements which inevitably interrupt any Public Works program.

This has been an enlightening and satisfying half-year for me personally, and a year of exemplary service on the part of the members of the Department of Public

Works. Their dedication and efforts in service of the Rutland citizenry deserve a round of thanks. The structure within which the Department operates — the Mayor, the Board of Aldermen, and the rest of the City government — also merit appreciation for the support they have given. On behalf of the entire Department of Public Works I assure you we continue to serve proudly.

Gail Tirre
Commissioner of Public Works

STREETS DIVISION

Henry Monaco, Superintendent
Alan Bushee, Foreman

After a half-year as the former Streets and Sewers Division the two functions were separated and the organization finished up as the Streets Division. As described in the Commissioner's report this Division underwent major changes in management and physical plant with vast improvements realized. The Division organized and ran the salvage/excess equipment sale for the Commissioner as well.

During the winter several adjustments were made in the approach to snow and ice control. As a result, service was enhanced and, even though the City received about 73 inches of snowfall as opposed to 70 inches the previous year, only 2732 tons of salt costing \$98,932 was used this year while last year the amount used was 3178 tons costing \$107,888. The change in methodology for salt usage resulted in 1115 tons applied Jan.-Mar. 1986 as compared with 1943 tons for the same period in 1985. This was a savings of \$25,496 over 1985. The snow crews again put forth an admirable effort on behalf of the citizens of the City to keep streets and sidewalks open for school, business and pleasure. Much of this work is done in the hours when many of us are sleeping through the storm, so we only see the result — cleared roads and walkways.

Other major work accomplished included the following items:

Bituminous Concrete — "hot mix" — paving of selected streets totaling over 3,000 tons costing about \$100,000 placed by Pike Industries, Inc. Streets or portions of streets paved were Stratton Road, Woodland Drive, Curtis Avenue, Park Street, South Street, Spruce Street, Forest Street, Meadow and River Street, Columbian Avenue, Cottage Street, Elm Street, Church Street, North Main Street, Avenues A, B, and C, Killington Avenue, Pine and West Street, and part of the City Garage parking lot.

Construction of approximately 824 lineal feet of concrete curbing and 765 lineal feet of concrete sidewalk.

Support of other DPW divisions with men, trucks and equipment.

Response to numerous after-hour callouts for summer storm cleanup, street damage, and other emergencies.

The year was one of metamorphosis for the new Streets Division, and at year's end the organization was going strong and already planning ahead not only for the coming winter storm response but also for next summer's street and sidewalk programs.

WATER TREATMENT

Rolla Jasmin, Water Treatment Manager

During the 1985-1986 fiscal year, there were 360 150-lb. cylinders of chlorine used for water treatment for the city at a cost of \$14,706.00.

There were 300 lbs. of copper sulphate used for treatment of algae control at the city reservoir.

There were 112 55-gal. drums of hydrofluosilicic acid used at a cost of \$4,900.00 for fluoridation of the water system. Three new pumps for hydrofluosilicic acid were purchased.

Monthly water system operations reports were sent to the State Division of Environmental Health in Burlington, Vermont. These reports include the results of daily testing of coliform bacteria and turbidity. The City of Rutland laboratory has 100% state certification.

There were 712 tests of free and available chlorine, pH and temperature taken throughout the City of Rutland and the results catalogued.

For the fiscal year ending June 30, 1986, the city's laborator tested 712 water samples for contamination from various points within the city's water system and 201 samples from brooks and ponds in the city's watershed and the city reservoir. All results were reported to the State Department in Burlington and to Rutland City Health Officer, Dr. William A. O'Rourke, Jr. Test results are reported to Dr. O'Rourke directly, and any positive results are reported immediately. The Water Division of the Department of Public Works works closely with Dr. O'Rourke and the Rutland City Board of Health with regard to the quality of the city drinking water.

Deficiencies and recommendations affecting the quality of the city water are discussed with Dr. O'Rourke and the Board of Health.

A new standby sixteen stage turbine pump was put in service at the chlorination plant to increase the efficiency and reliability of the chlorination operation.

A new otterbine floating mechanical aerator has been installed in the city reservoir.

WATERSHED CONTROL

The City watershed comprises 12,000 acres of which over 4,000 are owned by the City of Rutland as city forest. The 35 miles of brooks originating on it have filled Rutland City reservoirs since 1878.

Maintenance of water quality in our reservoir requires sanitation practice on our watershed and surveillance of tributary streams to maintain the quality of water entering the reservoir.

As a further check on the watershed, brooks in the watershed are continually being monitored. Samples from these brooks are taken periodically to check bacteria counts.

The Alpine Pipeline, a sewer running from Sherburne Pass down Rte. 4 to the city water system within the past year has helped tremendously to improve the water quality in our water source and with future development plans this should create an even better quality of water.

WATER DISTRIBUTION DIVISION

Bruce Matt, Manager

The year was busy and eventful for the water distribution crew. New and replacement meter installation almost doubled from the previous year; water main extensions quadrupled; and other work items increased dramatically. Response to emergency after-hour callouts and to daytime short-notice needs still was quick and effective, although such work understandably detracted from the ability to schedule and accomplish the regular work program.

Comparative figures for the past three years' work programs are:

	1983-84	1984-85	1985-86
Main Extensions	498 feet	284 feet	1,150 feet
New Hydrants	7	9	20
Hydrants Repaired	18	25	15
New Service Connections	32	40	27
Relay Services/Repairs	47	30	7
Curb Boxes	95	52	71
New Meters	128	129	217
Repair Mains	10	16	6
Repair Valves	8	10	7
Install Valves	11	10	10
Replace Meters	89	26	84

At year's end the crew was preparing to relocate their base of operations from Post Street to the City Garage on Spruce Street. After this summer's experience of working on coordination with the sewer maintenance and streets crews, and with a newly established base at Spruce Street, it is expected that productivity will continue the upward trend already established during the last half of the Fiscal Year. The Water Distribution Division is proud of its record of bringing Rutland's people good, clean water where and when it's needed; we plan to extend and improve upon that record.

WASTEWATER DIVISION

Joe Cannon, Administrator

As part of the organizational realignment of the Department of Public Works, all wastewater functions were grouped into a Wastewater Division. The portion of the former "Streets and Sewers Division" which dealt with sewers now forms the Wastewater Collection branch of the new Division, and the former "Water Pollution Control Plant" now forms the Wastewater Treatment branch. This realignment recognizes that the City sewers and treatment plant are parts of one system which can best be operated and maintained as a single entity.

A major equipment acquisition — a sewer flusher/vacuum unit — went into service in early summer and is expected to provide significant improvements in terms of fewer sewer stoppages and less sand and gravel flowing into the treatment plant. The wastewater collection crew was increased by one person to provide maximum use of the new flusher/vacuum.

Major progress was made on two upgrade projects. By the end of the fiscal year S.G. Phillips Constructors had completed all buildings and installed all major equipment in the upgraded wastewater treatment plant. Fencing, paving and landscaping were underway outside, and final process equipment work was progressing inside with completion of the project expected during early Autumn. Belden Corporation was well on the road to finishing the wastewater collection system upgrade project, with completion expected in late summer. Construction activity at the treatment plant has prevented normal tours; however, completion of the project will bring opening ceremonies followed by tours for schools and other groups.

As the treatment plant construction began to draw to a close an initial plant staff organization was developed. By the end of the fiscal year most recruiting had been accomplished and the scene was set for hiring at the beginning of the new year. Training plans were under development by Dufresne-Henry, Inc., the City's consultant for both upgrade projects. The training program is designed to familiarize our operators with the new processes and equipment they will find in the upgraded plant, to provide laboratory skills required for the new processes, and to develop safety and maintenance practices.

A site was selected at the treatment plant for a small pre-engineered building which will become the base of operations for the Collection Branch crew. By late autumn that building should be complete and the entire new Wastewater Division will be brought together at the treatment plant site. Consolidation of these elements at the plant, coupled with improved utilization and consolidation at the Spruce Street garage site, gives the Department of Public Works a greatly improved operational base.

WASTEWATER TREATMENT

Robert L. Harvey, Jr., Supervisor
Michael Garofano, Laboratory Director

The Wastewater Treatment branch endured a year of construction site life, working out of trailers. The construction activities uprooted the crew, disrupted operations, took apart old process systems and rebuilt them, and left people wading in the mud, dust, and snow. However, the crew continued to operate the primary treatment processes with good success, and began to assimilate the new and rebuilt process equipment as it was turned over to the City. During the summer the plant crew mounted a concentrated effort to bring pumping stations to a high level of maintenance in anticipation of the need to concentrate on the new plant later in the year. The Laboratory, which supports both the water and the wastewater operations of DPW, also was moved into a trailer for the year, but still was able to carry out the testing and analysis necessary to ensure safe drinking water for the City and to keep wastewater treatment on course. The Laboratory continued to serve the public by providing water sample analysis on a cost-reimbursable basis.

Some interesting annual statistics were:

Total Wastewater Treated	1,592,000,000 Gallons
Alpine Pipeline Flow (9 months)	8,060,000 Gallons
Methane Gas Generated	2,259,500 Cubic Feet
Grit and Other Debris Removed	85 Cubic Yards

Flow from the privately constructed Alpine Pipeline began this fiscal year, and the Wastewater Treatment crew took over maintenance of the Alpine line with its two pumping stations, on a cost reimbursable basis for the owners. The new Rutland Industrial Development Corporation pipeline from the airport zone with its single pumping station also was connected into the City collection system. It is expected that in the future the crew also will take over cost-reimbursable maintenance of that line. The newly upgraded treatment plant will recover and use methand produced by the plant's digesters to provide winter heat for the digest building and for the heat exchangers which form part of the digester process. Grit and other material removed at the front end of the treatment process was voluminous and contained quite large items, such as half-bricks, chunks of wood, large gravel, toys, etc. The large sizes and large total volume puts a strain on pumps, grit removal systems, and the operators themselves who must remove the material — sometimes by hand shoveling. The unusual volume and size was due in part to disturbance of the sewers by the upgrade project work and in part due to the combined storm and sanitary sewer system in the City. After completion of the sewer upgrade work, and with regular catch-basin cleaning by the new flusher/vacuum, the volume and size of this material should be much less. City sewer users can help reduce this problem even more by keeping such items out of the storm sewers. With a little help from the public in this regard the City collection and treatment systems will last longer with less repair and maintenance cost, and with a resulting lower cost to sewer users.

WASTEWATER COLLECTION

Paul Julius, Supervisor
James Ward, Foreman

The Wastewater Collection branch began the year as part of the former Streets and Sewers Division and splintered off at mid-year as the separate Sewers crew. The group operated for the rest of the year from a temporary base in cramped quarters on Coolidge Avenue. Later in the year the crew was incorporated into the new Wastewater Division, but continued to operate independently due to the physical separation of bases of operations and the developing nature of the Division. Despite this organizational turmoil the crew amassed an impressive record of work accomplishment. They contributed to the coordinated DPW work effort for the summer involving streets, sidewalks, water distribution systems and sewer systems; they worked around the Belden Corporation crews; they learned to employ the new flusher/vacuum equipment; and they responded to countless emergencies in the sewers. The following partial listing of work accomplished during the second half of the fiscal year attests to their dedication and productivity:

New Sewer Mains Installed	100 feet Clematis Avenue
	40 Stratton Road
Service Connections Installed/Repaired	42
New Manholes	2
New Catch Basins	10
Sewer Main Repairs/Plugs	20
Sewer Plugs Private	76

ENGINEERING

Warren E. Conner
City Engineer

The Engineering staff under the direction of the City Engineer, Warren E. Conner, provides survey, design, and other engineering services for all divisions of the Department and for other departments within city government.

In addition to providing these services, the Engineering Division complies and constantly updates plans and records of water and sewer contracts and specifications for jobs let out for bid, provides information to contractors and others concerning city utilities, prepares necessary easements and performs other duties of an engineering nature as required.

The Engineering Division was involved with the following major projects during the year:

Two major subdivisions under construction within the city. The "BOMAC" development off of Woodland Drive and Hilltop Terrace involves the construction of four new city streets including water mains, and sanitary and storm sewer systems. The Stratton Estates development off of Catherine Drive also involves the construction of four new city streets including water mains, and sanitary and storm sewer systems. All of these streets will be taken over by the city upon completion and final acceptance by the city.

The reconstruction of South Main St. from Strongs Ave. south to the city line was started in April 1986 by the Palazzi Corp. of Hookset, N.H. Included in this reconstruction are the replacement of water mains, sanitary sewer mains, sewer manholes and a completely new storm sewer system. The scheduled completion date for this project is Nov. 15, 1986.

Other projects include: extension of Haywood Ave. including extension of water main and sanitary and storm sewer systems; installation of underground telephone conduit on Woodstock Ave. from Lafayette St. to Gleason Rd.; replacement of sanitary sewer on Clematis Ave.; new 6" water main (to close loop) between Ave. B and Ave. C.

Two hundred and sixty eight building permits were reviewed in conjunction with the Building Inspector's office.

The project to upgrade the city's wastewater treatment plant under contract to S.G. Phillips Constructors, Inc. of Waitsfield, VT is continuing on schedule with a completion date of September 21, 1986. Also, the project to replace or rehabilitate approximately 16,000 feet of sewer mains within the city being done by The Belden Co. of Rutland is continuing on schedule with a completion date of late August 1986. The total cost of these two projects is approximately \$10,000,000 with ninety percent of the eligible costs being funded by the State and Federal governments. Mr. Alan Shelvey of the Engineering Division is project coordinator for the city for both of these projects.

The Engineering staff consists of Warren Conner, Alan Shelvey and John Havens with the part time assistance of Arthur Courcelle.

CITY FOREST AND ORNAMENTAL TREES

David Richards, Forester

The sale of all timber from the 4,000 acre City Forest, in the city watershed, is carried out according to standard approved watershed management practices. The objective is to protect and insure maximum sustained yields of usable water as well as to provide a regulated harvest of timber products. Timber sales include sawlogs, firewood and pulpwood. Sales are marked out so as to improve the timber stand which remains while providing income for the City. Trees over 6" diameter at breast height which do not promise to develop into sawtimber quality stems are removed. Large straight trees are left to become more valuable and to provide genetically superior seedlings. During the Fiscal Year 180,000 board feet of sawtimber and 149 cords of firewood and pulpwood were sold. Another 150,000 board feet and 235 cords were marked for later sale.

The Rutland Area Vocational-Technical Center's forestry program uses the City Forest to train students in logging techniques. They thin stands of both hardwood and softwood plantations, removing all low value material to favor the best trees, then prune the better softwood trees to a height of 17 feet after thinning.

The Ornamental Tree program maintains the beauty of the City by caring properly for our trees, replacing diseased or damaged trees, and adding new plantings. The effort includes removal of dead or dying trees, pruning and maintenance of healthy trees, and planting additional trees. Removal of elms infected with dutch elm disease continues to consume a large part of the tree budget. Central Vermont Public Service Corporation and New England Telephone have helped pay for removal if trees are a danger to their utility lines, and they have helped remove storm-damaged trees where the lines are involved. During the year 96 trees were removed, 307 trees received care such as pruning, cable-anchoring, and so on. New tree plantings totalled 45, less than half the number removed. Hopefully in future years the removal of diseased or damaged trees will taper off so that more of the small budget can go into new trees.

Rutland Recreation & Parks Department

John W. Cioffredi, Superintendent

To the Honorable City Council & Citizens of Rutland:

I respectfully submit our Annual Report of events & activities sponsored by the Rutland Recreation and Parks Department for fiscal year ending June 30, 1986.

— FACILITIES —

EDWIN W. LAWRENCE RECREATION CENTER. 86 Center St. Phone: 773-1822.

SENIOR CITIZENS CENTER. Off Deer Street. Phone: 773-1853.

GIORGETTI ATHLETIC COMPLEX. Located at Giorgetti Park. 2 Basketball Courts, 2 Paddleball Courts, 1 Baseball Field, 1 Softball Field, Nature Trails, Ice Skating Rink.

MONSIGNOR CONNORS PARK — Meadow Street. 2 Lighted Basketball Courts, 3 Lighted Tennis Courts, 1 Wading Pool, 2 Softball Fields, & Playground Equipment.

WHITE MEMORIAL PARK — Off Avenue B. Swimming & Wading Pools, Playground Equipment, 1 Ballfield, 5 Tennis Courts, 2 Platform Tennis Courts & 2 Basketball Courts.

ROTARY PARK — Off North Street. 4 Tennis Courts, Fieldhouse, Playground Equipment, 2 Basketball Courts, Lighted Softball Field & 2 Handball Walls.

MINI PARKS — Designed with playground equipment geared to Tiny Tots. LOCATIONS: Corner of River & Meadow Sts. Corner of Madison & Prospect Sts.

— YOUTH ACTIVITIES FOR FALL & WINTER —

HALLOWEEN EVENTS

This year's Halloween events proved to be lots of fun for all age groups. A well attended Jr. High Costume Dance for grades 7-9 was held at the Lawrence Recreation Center on October 24 from 8-11 PM.

Little ghosts and goblins enjoyed an afternoon of Halloween Fun at the Recreation Center Saturday, October 26. Prizes were awarded for the funniest, most creative and scariest costumes. Fun and refreshments were enjoyed by all.

Downtown merchants helped sponsor a "What's Wrong with the Window Contest". Drawings and prizes were furnished by the participating merchants.

The 26th Annual Halloween Parade complete with forty-one entries of spectacular floats, bands, and costumed characters delighted the crowd of spectators and spooks. Debbie Sharp from Mill River was reigning queen of this year's parade. Unmasked, O'Lantern in all his treachery proved to be Fire Chief Gerald Lloyd. Chuck Gallagher, a 6th grade student from Northeast School and winner of the O'Lantern Contest, received a new bicycle donated annually by K-Mart Department Store.

Float winners were: "Best in Show" . . . Miss Paula's Theatrical Entourage; "Most Original" . . . KC's Tavern; "Most Creative" . . . Rutland Fire Department. Best Costumed Band trophy went to Mill River and Best Costumed Majorettes were from M.S.J. Honorable mention went to First Vermont Bank Float, M.S.J. Cheerleaders and Proctor's Flag People.

CHRISTMAS EVENTS

We would like to recognize Mrs. Beverly Castle, who passed away this year for her many years of help in our annual toy project. A special thanks to the Rutland Senior Center Activity Fund, Christ the King students and Joanne Slattery, Rutland Squares, Rutland County Stamp Club, I.H.M. Parish, Marsha Wilson, and to all those fine people who dropped off toys at our office. Because of such generosity 195 families and 417 children had a merrier Christmas. A special Family Christmas Show featuring the "Pink Elephant Theater"/Green Mountain Company was held at the Lawrence Recreation Center Saturday, December 21. A special thanks to our Senior Citizen Volunteers who with their help 73 youngsters received "very special" calls from the North Pole.

NORTHEAST FIELD PROJECT

Work continues on the Northeast Project with work almost complete. All that remains is for the park to have a good growing season. If all goes well we hope to be playing next summer.

SENIOR PROGRAMS

The Rutland Recreation & Parks Department's Senior Center, located off Deer Street is a vital part of the Rutland Community offering a wide variety of activities and services to the city's older population.

During the 1985-86 year continued growth in program and additional services have added to increased participation. The Center is a meal site for the Area Nutrition Program and served approximately 8,100 meals including a traditional Thanksgiving and Christmas dinner. Approximately 44,500 men and women participated in programs sponsored by the Rutland Recreation & Parks Senior Center.

RECREATIONAL PROGRAMS HELD AT THE SENIOR CENTER

Art Classes (oils, watercolors, acrylics)	Piano Lessons
Ceramics	Cut & Pierce/Fabric Lampshade Workshops
Crewel & Latch Hooking	Contra & Square Dancing
Christmas Craft Workshops	*Round Dancing
Cone Wreath & Center pieces	Bridge
*Ribbon tying	Hiking
*Tree Ornaments	Cross Country Skiing
Wreathmaking	Shuffleboard League
*Potpourri Crafts	Horseshoe Pitching League
Ornamental Straw Hats	Pool Bingo
Grapevine Wreaths	Evening Card Parties
Stenciling	Tax Counseling
Quilling	Spelling Contest/Intergenerational
Quilting	55 Alive/Mature Driving
Macrame	*Weight Behavioral Modification Class
*Decoupage	*Coupon Exchange w/UVM Ext. Service
Exercise/Fitness Classes	Bowling League
*Walking for Health	Golf League
Yoga	Speakers Program
Letters to Santa Claus	Slide & Travel Programs
Senior Home Demonstration Club	Flea Market

SPECIAL EVENTS — EXTERNAL PROGRAMS

Hiking	Bowling Banquet
Pictorial Identification w/Rutland Historical Society	Golf Banquet
Open House Week	Washington's Birthday Ball
Christmas Dinner & Party	Picnics
Halloween Float & Marchers	Memorial Day
Halloween Party	4th of July
Valentine's Party	Labor Day
St. Patrick's Day Party	Activity Day Picnic w/Nutrition Program
	Exchange Day w/Springfield Senior Center

SLIDE PRESENTATIONS by Bill Love

South America & the Amazon
Australia & New Zealand
The Grand Canyon
Alaska

HEALTH SERVICES OFFERED

Monthly Blood Pressure Screening
Flu Clinic w/Rutland Area Visiting Nurses
Foot Care Clinic/Monthly
*Linde Health Care/Oxygen Capacity Testing

 Roger Ames: Marble Valley Transit
 Authority on "The Bus"
 New England Telephone Company — on
 measured service

CHRISTMAS PROGRAMS & ACTIVITIES

During the 1985 Christmas season the Center participated in two very special programs. For the second year the Rutland branch of the US Post Office loaned us a mailbox which was painted red and set up in the Depot Park. Fifteen volunteers came daily and answered letters from children all over Rutland County. The Center also cooperated with downtown merchants and through the Retired Volunteer Program tied some 1,200 ribbons to decorate trees in the downtown area. Approximately 27 people participated.

TAX COUNCILING FOR THE ELDERLY

Tax assistance is provided for individuals age 60 and over by eight volunteers who attended a week long course at Castleton State College. This year 312 persons made use of this service. The volunteers assisted in simple taxes: Federal, State, Rebate and Sales Taxes.

VOLUNTEERS

The many hours that volunteers give to the Center cannot be calculated in dollars and cents. Thirty-two individuals donated many hours which contributed to the continued success of our Senior Center. Their friendliness, enthusiasm and hard work is greatly appreciated by John W. Cioffredi, Superintendent, and by the participants.

SPRING & SUMMER PROGRAMS

POOLS: 1 Olympic size and 1 wading at White Park, 1 wading pool at Msgr. Connors Park. White Olympic Pool opened June 14 for the season. Three, three weeks of lessons were held. Instructions were for the very beginner through advanced swimmer. Our swim team continues to be very active. Adult time swims are every weekday noon hour. City Championships were held July 22.

PLAYGROUNDS

SUPERVISED PLAYGROUND ACTIVITIES were held at Giorgetti, Msgr. Connor, Rotary, Northeast and Southeast School from June 17 to July 12, 9:00 AM to Noon. All 5 playgrounds were visited by special instructors (Karate, Gymnastics,

Arts & Crafts, Dance and Sign Language Specialist). Special events included City Olympics & daily ongoing unique activities.

CREATIVE PLAYGROUND a program geared to 4 and 5 year olds was conducted at Madison St. Mini Park from 9:30 to 11:30 AM. Two sessions were held June 17-July 5 and July 15-August 2. Participants 50.

CAMPS

The Recreation Department sponsored a variety of camps for children of various age groups throughout the summer.

PINE HILL DAY CAMP was offered in two sessions July 15-26 and July 29-Aug. 9. Children entering Grade 1 attended from 9 AM to Noon and grades 2-8 from 9 AM-3 PM. Camp emphasis was nature oriented activities that promote awareness and understanding of man's role in the environment. Participants 177.

OUTDOOR ADVENTURE DAY CAMP is a mobile camp that exposes students to basic outdoor survival skills. The thrills of rock climbing, rappeling, or caving were part of the daily activities enjoyed in this exciting program. Participants 30.

TRACK CAMP was held at the Vocational School Track for two weeks from July 8 to 19. The track ran for children ages 6 to 14. Participants 101.

BASKETBALL CAMP for students in grade 5 through high school was held June 24-28, for boys and July 1-5 for girls. The camp ran from 9:00 AM to 3:30 PM. A positive attitude towards athletic competition and basketball fundamentals were stressed. Participants 21 girls / 86 boys.

SOCCER CAMP for boys and girls ages 7 to 14 was held at Giorgetti Park June 23-27 from 8:30 AM to Noon. Areas covered at camp were stretching, warm-ups, conditioning, ball handling, individual skill development and field games. Participants 51.

GOLF CAMP for both boys and girls ages 8 to 18 was held at the Rutland Airport Driving Range on July 9, 11, 16, 18 and 19. Campers were offered 4 lessons on how to play, the rules and etiquette, and 1 day of play.

OTHER SUMMER ACTIVITIES

CAVING AND ROCK CLIMBING — Session I met every Wednesday and Session II every Friday for 4 weeks from 9 AM - 3 PM. The camp was a mobile unit featuring techniques of belay, rappel and friction climbing.

TENNIS LESSONS held at Rotary Courts under the instruction of Bruce Baker were held for ages 8 through adults. Participants 50 children and 20 adults.

ANNUAL FISHING DERBY & HUCKLEBERRY FINN LOOK-A-LIKE CONTEST was held June 28 at the Combination Pond from 9:00 AM to Noon. The event was open to children ages 5 to 13. This year a new feature, the "Huckleberry Finn Look-A-Like Contest" was added to the event. Prizes and awards along with a lunch buffet was given by the Kiwanis Club who is a co-sponsor. Participants 85.

SAFETY TOWN held at Rotary Field House was July 29 - August 9 from 9:30 to 11:30 AM. Through creative and fun filled activities, complete with a child size playground 20 children learned about pedestrian, car, fire, home, pool, playground, animal and stranger safety.

FRANK CROWLEY MEMORIAL ROAD RACE from Proctor to Rutland was held June 1. The race was open to all ages. Participants 60.

TWILIGHT TRACK MEETS were held every Tuesday evening for all age divisions throughout the summer months. The event was held at the Vocational School Track.

FUN RUNS were offered each Wednesday evening at 7 PM starting June 26 and continuing for 6 weeks. The runs were open to all ages and running abilities. Each race featured a "Little Kids" one mile race and a short and long run.

REMOTE RADIO CONTROLLED RACES — This spring saw the construction and completion of one of the first remote radio controlled race tracks in New England. This facility was developed at Rotary Field in conjunction with a group of enthusiastic people and Lee Valincourt.

CONCERTS

Groups featured ranged from folk, brass, rock, Irish and country.

LUNCH WITH MUSIC — each Tuesday from Noon to 1 PM in the Center Street Alley from June 25 - August 6.

THIRD ANNUAL SING-A-LONG — Friday, August 2 in the Center Street Alley.

SEVEN TO SUNSET CONCERTS — each Wednesday from 7 to 9 PM in the Main Street Park.

THE VERMONT SYMPHONY "POPS" CONCERT — held July 13 at Giorgetti Park. Family picnicking was encouraged when gates opened at 5 PM.

OPERA-ON-WHEELS — presented a one act opera called: "Four Note Opera" Thursday, August 1 at 12 PM in the Center Street Alley.

SPORTS

MITEY MITE BASEBALL PROGRAM: Students ages 7-10. Four weeks of play afternoons at Giorgetti and White Parks. Teams 20 / Participants 235.

MIDGET LEAGUE BASEBALL: Students ages 10-13. Ten weeks of play at Rotary and White Field. Teams 10 / Participants 121.

SENIOR LEAGUE: Ages 13-18. Eight weeks of play, plus tournaments, at Giorgetti Park. Teams 5 / Participants 75.

JUNIOR LEAGUE: Ages 13-16. Informal play at Giorgetti Park. Teams 4.

GIRLS SOFTBALL: Grades 5-8. Four weeks of play at Msgr. Connors Park. Teams traveled to various towns. Participants 15.

OLYMPICS: A spin-off of our organized playground activities, and held at Vo-Tech Track. Open to youths between the ages of 6-14. Preliminary practices were held for one week prior to Olympic Day June 29. The event featured track & field events.

KID'S SPORTS EXTRAVAGANZA: Held in conjunction with playground events on June 22 at the Vocational School. Events included parachute games, earth mover, and water relays. Participants 50.

ADULT SOFTBALL LEAGUES: Playing areas — Msgr. Connors, Rotary North, Rotary South, Giorgetti Park and Northeast School.

SCHOOL COMMISSIONERS

To the citizens of Rutland City

As we approach the start of the 1986-87 school year we are facing many challenges. We were fortunate to be able to replace the retiring Pete Kelly with a new superintendent, Mr. Charles P. Skiptunas who comes to us from East Aurora, New York. The School Board feels confident that with his leadership and the support of the community and staff that we will be effective in dealing with these issues and concerns.

We continue to be faced with constantly changing enrollment patterns which currently means enrollments are increasing at the elementary level and decreasing at the secondary level. This Board has continually taken a lead in encouraging a strong and varied curriculum to meet the needs of all students, pre kindergarten through adults. As a result of this, our secondary students have responded by taking more courses, so despite decreasing enrollment, we have increased utilization at this level. Rutland High School, the Rutland Area Vocational School and three of our elementary schools have been through the School Approval Process as mandated under new Vermont Public School Approval Standards. On the whole, our reports have been very favorable with our one area of greatest need being the need to improve our buildings. They are overcrowded, inadequate in the special areas and under-maintained. In order for our schools to receive State approval it is necessary for us to pass a Bond to finance the needed improvements.

In the past few years funding of our schools has been very positive, however, we are again approaching leaner times. We have seen dramatic increases in our liability insurance and certainly hope that the legislature will look at the impact of liability insurance on municipalities. We are entering into an era of a critical teacher shortage and it is important to Rutland City that we maintain competitive wages for our staff. The Board has taken a strong stand with the State Department of Education regarding funding of Vocational and Special Education programming. These three areas along with the need to improve our buildings and to maintain a strong curriculum will provide a challenge to the community as we look to ways of strengthening our school system.

I feel positive about the future of education in the City of Rutland as we have a clearly defined Mission statement developed by the community to guide us. We appreciate the support of our staff and the citizens of Rutland because it is with your help that the Board will be able to continue a strong educational program.

Carolyn Baker, President
Board of School Commissioners

DEPARTMENT OF EDUCATION

To the Honorable City Council and the Citizens of Rutland:
Ladies and Gentlemen:

It has been with great pleasure that I began serving the City School District of the City of Rutland on July 1, 1986. As of this writing my tenure in the district has spanned slightly more than two months. During this period I have found it to be an extremely challenging and rewarding position of responsibility. Having the opportunity to return to the beautiful State of Vermont, and particularly the City of Rutland, had always seemed like a far away fantasy. With the reality now sinking in, I am happy to report my happiness in being associated with the many fine people that comprise the population of this City.

I would be remiss by not extending my thanks to retired School Superintendent Lloyd A. Kelley, Jr., for all of his assistance in smoothing my way into this school system. I have also had the unique opportunity of being able to work with another former Superintendent, Thomas Chesley, who has provided a wealth of history and knowledge pertaining to the Rutland City Schools.

One of the most pressing challenges we face is the continuing development of pride in an already fine school system. The enrollment trends in the City School District seem to indicate that decline in student population has reached its maximum. We are now beginning to see a stabilization with our incoming school population which should provide us with more accurate indicators for the future. The Class of 1987 will graduate approximately 218 students and the low will be reached with the Class of 1990. From that point we should see a small but marked increase in school population.

Our instructional program and the providing of services for children with special needs is exemplary. We are progressing in those curricular areas that have been proven to be educationally sound and effective based upon current research. We will continue to monitor our student program to determine that our students in this City School District are receiving the finest education that the citizens of this City can provide.

I would like to mention the fine men and women who are serving you as members of the Board of School Commissioners. Being a Board Member is a thankless, non-paying and time consuming job. Our Board has the interests of the students as their primary concern. This Board is constantly trying to resolve, with the public, how to continue funding a program which does not get cheaper each year but, in fact, becomes more expensive, as you well know from your visits to the supermarket. I have been impressed with the people with whom I have been working and who are serving the parents and children of this City.

The future of this District will be forged by School Commissioners, teachers, and staff providing leadership in the encouragement of a sound instructional program, providing recognition for personnel, and developing programs to combat the scourge of our society, which is taking a terrible toll in human and financial resources upon our "kids" of all ages, that being alcohol, substance abuse and disruptive behavior. We hope as a School District to be providing leadership for this community to address the prevention of these negative afflictions which are infecting many of our population — young and old.

Of particular concern to the School Commissioners is the funding of our schools. We are very near the Charter limit and we still see no great hope on the horizon for increased State Aid to even closely match the local effort. As a matter of fact, we face the possibility for a reduction in Federal assistance to the programs that have been mandated in our school program. We have a pledge of excellence through the

District's Mission Statement but that pledge of excellence must require support and funding. Hopefully, our legislature will respond in the best interests of our children.

We are all aware we no longer have a majority of our population with children in schools. That does not mean that we must not continue to meet our responsibilities and that responsibility extends to the children in our schools. Those children are our leaders for the year 2000 and beyond. We will be making very serious attempts to improve the climate of our school organization and develop closer and closer linkages with the community. It is imperative that this partnership be expanded.

It is very difficult for me to enumerate at this writing a high level of specific concerns or to laud existing programs. I look forward to future Annual Reports to do that. My message to you, all of the citizens of Rutland, is have you realize the investment in education is an investment in your investment, not only in Vermont but the City of Rutland. It is an assurance the quality of life people in Vermont have cherished and developed, will remain one of the most valuable attributes we possess. I look forward to meeting many of you and working with you as the year continues and, hopefully, we can make a meaningful effort in making the City of Rutland and the City School District of Rutland be all that it can be.

Respectfully submitted,
Charles P. Skiptunas
Superintendent of Schools

DEPARTMENT OF EDUCATION — RUTLAND PUBLIC SCHOOLS
PER PUPIL COSTS AND ENROLLMENT
For the School Year Ended — June 30, 1986

TOTAL CURRENT EXPENSES:

All Schools Less Community Service	8,399,637.98

RUTLAND SCHOOL DEPARTMENT

In accordance with Rutland City Board of Education Policies, a free appropriate public education for all handicapped children is guaranteed. If your child is handicapped, or you know of a handicapped school age child who is not currently being served, please contact the Pupil Personnel Office at 773-1917.

RUTLAND HISTORICAL SOCIETY

101 Center Street, Rutland, Vermont 05701

The Rutland Historical Society has enjoyed another rewarding year. Specifically, we again won an award, the Vermont Historical Society's Award of Merit for our Quarterly on the early Rutland aviator George Schmitt.

We were also awarded a matching grant to participate in the Vermont Museum and Gallery Alliance survey project of museums. Our costume collection, decorative arts and the Farm Museum were evaluated by experts. Particularly valuable were suggestions on the purpose and direction of our museum and how to build on our assets. Nancy Rexford of the Northampton Historical Society, William Hosley of the Hartford Athenaeum and Scott Hastings, Jr., formerly with the Billings Farm Museum were exceptionally knowledgeable and helpful.

Finally, though not directly our project, the city was awarded \$2500 from the Division of Historic Preservation to help in rehabilitating the Nickwackett Fire House exterior. This opportunity was brought to the attention of Jeff Wennberg, the City Planner, by the Society. Mr. Wennberg, with an imminent deadline, did a superior job fulfilling the application requirements. Eventually the Society hopes to move to Nickwackett and then possibly our present building could be sold and put on the tax rolls.

We have had programs on Saturday afternoons at the Rutland Free Library which seems to be a fairly popular idea. However, our speaker August 12, the famous weather expert, David Ludlum, met with us at the Senior Citizens Center. The October 16 Annual Meeting was in the meeting room at CVPS and the program detailed the new visitors center at the Shelburne Museum. An Oral History Workshop with Dr. Holman Jordan of Castleton was given Oct. 26. Prof. Bruce Burton, also of Castleton State College, presented February 8th, "Jane McCrea — An American Heroine?" a story about Revolutionary times. Polly Haynes of Meadowsweet Herb Farm spoke to over 90 on "Planning Your Herb Garden", April 12.

Our History Book group met regularly the fourth Thursday of the month. This is the committee that is proposing to produce a four volume "History of Rutland" in time for the city's centennial in 1992.

The Sing Along held the first Friday in August in the Center St. Alley, is a very different yet popular activity and a major fund-raiser for our treasury.

Also a major attraction is the Farm Museum at the Rutland Fair Grounds which requires many volunteers during Fair Week because of numerous visitors.

Steady sources of income are sales of the Republic of Vermont license plate and the ever popular "Rutland in Retrospect". Several issues of the Quarterly continue to be popular, too. Financial support from the city itself is most helpful and appreciated.

"Rutland Aloft" was the only exhibit we were able to mount this year due to the unstable condition of our building. It was shown at the 25th Anniversary celebration of the Rutland State Airport. All in all though we have had a very good year.

Eleanor J. Elwert
President

REPORT OF THE LIBRARIAN

For the Year Ending June 30, 1986

To the Honorable City Council and Citizens of Rutland:

It is a pleasure to present this annual report, which is my twenty-third as Director of the Rutland Free Library.

The heavy activity characteristic of recent years in the library was sustained. In addition to this, much of the latter half of the year was spent in planning and preparing for the Centennial observances which will be taking place during the coming twelve months.

Circulation statistics are an important index, but they remain just one of a number of measures of library service and use. Another measure is that of In-Library Materials Use, indicating the utilization which library materials get without their leaving the building. A survey of this use was done here during the fall.

Rutland Library's statistic, which was derived from this survey, proved to be about triple that of the figure offered as an example by the American Library Association. The nearly five uses per capita shown for the City and Town is assuredly a high figure.

Videocassettes

Both the adult and children's departments have begun the development of videocassette collections. The Children's collection initially will feature Walt Disney classics and cartoons, and later will include films based on children's books. The Adult collection will have titles ranging from how-to-do-its to older film classics and film adaptations of classic novels. The audiocassette collection, long a part of the circulating adult materials, is being expanded to include popular novels, plus popular non-fiction aimed at business people and others involved in our busy contemporary life styles.

Handicapped Accessibility

Improving the building's accessibility for handicapped persons continued to be a main concern. A ramp access to the Center Street door, and the enlargement of the main floor lavatory to afford handicapped accessibility, were completed at the beginning of the winter.

With attention focused upon obtaining an elevator access to the various floors and levels of the library, consideration was being given early in the year to future building needs and possible expansion of the library addition. A library consultant, employed by the board during the summer, reported at the library's Annual Meeting in October.

Physical Plant

Work on the outside of the main building was completed shortly before winter. This included sanding and repainting of the metalwork, above the foundation level; pointing up of the brickwork; window caulking; and roof cornice and soffit repairs. Interior painting was continued, during the summer and fall, in main floor areas, the southwest stairways from basement to second floor, the two Vermont Rooms, and the second floor north meeting room.

New drapes replaced the older ones in the two Children's Rooms, the Lawrence Reading Room, the Reference Room and Circulation Desk areas, the Vermont Rooms, the second floor south hallway, and the Fox Room. Adding to the decor in adult areas of the library are ten framed prints from the Metropolitan Museum of Art.

Ceiling Fans

The installation of a system of ceiling fans will serve both as a long range conservation measure and to increase comfort in the building for users and staff alike. These

fans, located in the Fox Room and in the first floor areas of the main desk and card catalog, the two children's rooms, the Lawrence Room, and the reference room, can perform two functions seasonally. As reversible fans, they circulate warm air downward during the winter, increasing comfort while lowering fuel energy costs. The setting of the fans is reversed during the summer for a cooling effect. In addition, the placement of an exhaust fan at the rear of the upper adult stack has transformed a hot and stuffy bookstack area into a comfortable one on warm days.

A new shelving unit was constructed for the Program Director's Office on the second floor. The main breaker box on the first floor was replaced, and the associated wiring updated. A rearrangement of furnishings in the audiovisual and new books area has been carried out in the interest of "opening up" this part of the library near the main desk.

Computer Activity

The Vermont Department of Libraries, UVM, and Middlebury College have been developing a statewide online library network, scheduled to become accessible to Rutland and to other libraries in 1987. In anticipation of this, the Director participated in a three-day Management Institute on "Moving into Automation." Assistant Children's Librarian Debby Higgins was a "D-Base 3" workshop participant, and also attended course sessions on "Microcomputer Based Library Applications."

Toward the end of the spring the library acquired an NCR Personal Computer, which Mrs. Higgins researched prior to its purchase and with which she is working closely before introducing its uses to the rest of the staff. Further, in fund raising for the computer, she has contacted numerous local businesses, whose contributions, resulting, are much appreciated. Profits from the sale of 100th Anniversary tote bags also will be directed towards computer expenses.

The library plans to computerize a number of its functions, its bookkeeping and borrowers files among them. Two of the adult department staff have worked previously in automated library situations, and this will be beneficial when the library can begin to "look into" the statewide automated network.

Library Staff

Mrs. Helen Field of the adult department staff retired in December, being replaced by Mrs. Wendy George, who had moved to the area from Pennsylvania and brought library experience with her. Also in December, custodian Charles Chehy suffered a heart attack from which recovery was slow, necessitating several temporary custodial replacements. It was hoped that he would be able to return to work during the summer.

Retiring as mending librarian was Mrs. Maude Kent, Senior Community Services worker. Her duties were assumed by volunteer Mrs. Jean Newton of Pittsford, and later also by S.C.S. worker Mrs. Muriel Emery. Foster Grandparent during the summer in the Children's Room was Mrs. Agnes Jackson.

National Library Week

A feature of National Library Week this year was a Trivia Contest, held statewide. While no local entrants won in the state drawings, three adults and two children who supplied the correct answers to the trivia questions were awarded gift certificates for books, by the Rutland Free Library. Among other activities of the week were a Sunday concert and reception, a book swap in the children's room, a program on Indian myths, and a puppet show.

The variety and number of Fox Room programs continued large, this year under the direction of Program Director Mrs. Carolyn Meub. A Book Sale was held in the north basement in August, with another being planned as a Centennial Year event.

100th Anniversary

A Centennial Committee was formed in January. Members of the committee, which met frequently and intensively for the next several months, were staff

members Carolyn Meub, Jacob Sherman, Carol Chatfield, Laurie Preston, and Charles Maurer, and trustees Margot Stinson and Polly Wright.

Noting that the Rutland Library first opened for service on July 5, 1886, a festive garden party celebration was planned for July 2, 1986. State and local dignitaries, and all of the public, were invited. A children's program would precede an official rededication of the library, at which the keynote speaker was to be Senator Stafford of Rutland. A ribbon cutting would follow, with a family program to conclude the day's events.

The Centennial Committee also planned a schedule of events which would continue throughout the next twelve months, to be reported at a later date. Prior to July, however, much attention already was being paid to the library's anniversary year. The June issue of the Rutland Historical Quarterly was devoted to the library and its history. An article in the Rutland Business Journal in June focused on the library's operations past and present. A twelve-page Supplement to the Rutland Herald at the end of June, which staff member Jacob Sherman edited, will serve as a permanent reference for future researchers of the library's history. The library itself also issued a special edition of its newsletter in June for the anniversary.

Building Planning for the Future

The Library Board Planning Committee held meetings during the year, after the Consultant's report referred to above had been digested. The effort was to decide what building changes, including a possible addition, should be carried out concurrently with an elevator installation.

At the Board's request, Library Director Charles Maurer developed space requirements which he felt, based on his experience here since 1963, would satisfy library needs over a twenty-year period, for all areas of the library's operation. The Board studied the Director's recommendations, then employed architect David Crawford to develop a space study "program" which would utilize Maurer's projections. As of June, the Board had met, discussed, and were deliberating on the application of this program.

Board of Trustees

Library Board members this year were: Royal W. Barnard, President; Mrs. William B. Wright, First Vice President and House Committee Chairman; Robert P. McClallen, Second Vice President and Bylaws Committee Chairman; Mrs. Margot Stinson, Secretary; Jack Merola, Treasurer and Nominating Committee Chairman; Edward J. Layden, Audit Committee Chairman; R. Richard Smith, Finance Committee Chairman; Mrs. Pauline W. Merusi, Fox Room Committee Chairman; Ms. Jacqueline Chouinard, Personnel Committee Chairman; Thomas J. Hurcomb, Planning Committee Chairman; Allen H. McCoy; Thomas Feronti; and Mrs. J. Othmar Gaechter.

The past year has been a very busy and challenging one, including much planning for the year ahead.

Respectfully submitted,
Charles D. Maurer
Director of the Rutland
Free Library

**RUTLAND FREE LIBRARY ASSOCIATION
FINANCIAL REPORT**

Hon. John J. Daley
Mayor of Rutland
City Hall
Rutland, VT 05701

Dear Mayor Daley:

I am happy to enclose the Financial Report of the Rutland Free Library Association, Inc., covering the period from July 1, 1985 to June 30, 1986.

On behalf of the Trustees, may I take this opportunity to express to you and to the members of the Library Committee, as well as the Board of Aldermen as a whole, our sincere appreciation for your cooperation and support in allowing our Library Association to offer a quality service to the people of Rutland.

Sincerely,
John Merola, Treasurer

**RUTLAND FREE LIBRARY ASSOCIATION
TREASURER'S REPORT**

The report of the Treasurer for the fiscal year July 1, 1985 thru June 30, 1986 has been audited.

Testing consisted of verification of mathematical accuracy, propriety of handling receipts and disbursements.

Items to be tested were selected judgementally. No material errors were found from the results of our review. The report appears to be fairly stated and functional.

Yours truly,
Frank S. Cecot

RUTLAND COUNTY SOLID WASTE DISTRICT

ANNUAL REPORT 1985

INTRODUCTION

The District's activities in 1985 were focused on completing the financing of the Vicon Resource Recovery Plant and addressing growing concerns relative to the environmental impacts of the plant at both the local and state level. The year ended with a major policy statement by the Governor which may have a significant impact on the construction and operation of the Vicon facility.

RESOURCE RECOVERY PROJECT

Final financing negotiations continued through spring and summer of 1985 with the bond closing occurring on September 26. The closing was preceded by final negotiation of the first amendment to the Services Contract between Vicon and the District. The amendment included an increase in the warrantied electricity production from 27,000,000 kwh/yr to 28,500,000 kwh/yr, and an increase in the non-District tipping fee from \$15.00 to \$16.00 per ton and various minor changes to comply with the final closing conditions. The increased total costs of the project were balanced by a higher energy output and lower bond interest rate so that the tipping fee has remained at \$16.50.

Major components of the financing package include a letter of credit issued by the Industrial Bank of Japan to secure the bonds and equity ownership by Ingersoll-Rand Company. The final bond amount was \$16,500,000 with an additional \$5,778,000 to be assumed by the equity owner at completion of the facility. A \$4,000,000 construction loan through the Industrial Bank of Japan will provide the necessary construction funds until the equity purchase is made.

The proceeds of the bond sale were deposited with the Chittenden Trust Company who will serve as project trustee. The Vermont National Bank will serve as District Trustee, overseeing the District collateral reserve account and transfer of tipping fees to the project.

This past year has seen an increasing awareness at both the local and state levels about the air quality impacts of the Vicon plant. Although the issues raised were primarily emotional rather than factual, they had a significant impact on the project due in part to extensive media coverage. This increasing awareness prompted Water Resources Commissioner, Jonathan Lash to issue a memorandum in April that required a revision of the existing air quality permit to include acid gas controls. Although the April memorandum seemed to satisfy the acid gas controls, a new issue, "Dioxin", continued into the late summer and fall. This controversial issue precipitated the unlawful revocation of Vicon's building permit on September 30 by Rutland City Board of Aldermen. The permit was restored by the Vermont Superior Court on November 7.

In order to offer an opportunity to view a similar operating resource recovery facility the District again sponsored a bus trip to the Vicon plant in Pittsfield on April 30. Those who attended the trip were generally impressed with the plant's operation and found no evidence of problems from either the City of Pittsfield or the residential communities adjacent to the plant. The Pittsfield plant is located in a valley topography similar to Rutland and offers an excellent opportunity to evaluate the plant's impact on the community.

CITY PETITION VOTE

In response to a petition signed by the required number of city residents, the City of Rutland held a special election on November 26, 1985 on the question of whether the City should withdraw from the Solid Waste District. Since the District Formation

Agreement binds all members to remain in the District subsequent to entering into a long term contract or financial commitment, the vote had no legal basis and was merely an opinion poll. Even though the vote was non-binding the Board of Supervisors felt that a positive vote would enhance the District's standing in the community and decided to utilize the election to focus attention on the factual issues of the plant's safety and air emissions. The District's educational program included radio advertisements, newspaper ads, direct mailers and an updated position paper prepared by an outside consultant. This District effort was supplemented by similar efforts by Vicon Recovery Associates.

The period preceding the election included several forums and discussion groups where air quality and health issues were debated by nationally recognized experts in their respective fields. The most publicized forum was held at St. Joseph the Provider College and concentrated on dioxin and risk analysis. Of the 100 plus people attending the forum, less than 25 residents of Rutland City participated.

The November 26 vote was 1,208 to 794 for remaining in the District. The margin of victory and the relatively low voter turnout, especially in Ward 3B where the plant is located, were definite signs that the majority of Rutland City residents support the efforts of the Solid Waste District and feel that the proposed Vicon plant is a safe method of disposing of our solid waste.

GOVERNOR'S STUDY

On October 1, 1985, Governor Madeleine M. Kunin instructed the Commissioner of Health in cooperation with the Commissioner of Water Resources to evaluate the potential risks to human health arising from acid gas and dioxin air emissions and from dioxin in the ash from the Rutland resource recovery facility. The report which was released to the general public on December 13, 1985 was a thorough literature review and included risk assessments based on pre-existing data and information obtained from a panel of experts in their respective fields. These risks were based on a range of tests taken from plants much larger than the Rutland plant and of differing technology. The report concluded that the risk assessment and permit revision for the Rutland facility should be based on the emissions tests currently being conducted at Vicon's Pittsfield plant. The final results of these tests will not be available until early summer, 1986. The revision of Vicon's air permit will not be completed until that time when the test results can be compared to a new dioxin standard which is being prepared by the Agency of Environmental Conservation.

The Report further concluded that acid gas emissions will be "far below the acute level" and there "is no evidence of health effects" from the acid levels expected from the plant. The risks associated with ash disposal were judged to be manageable, provided that the disposal is properly managed in a suitable facility.

DISTRICT ADMINISTRATION

The number of District member towns continued to grow in 1985 with Clarendon, Sudbury and Mt. Tabor voting to join the District at their respective annual town meetings. These new towns bring the District membership to 25 and virtually assures our minimum waste commitment of 30,000 tons per year to the Vicon plant.

This past year marked the beginning of the District's Environmental Committee which was formed to evaluate the potential of a household hazardous waste collection program and to lobby for more state involvement in regional solid waste management planning. The Committee has prepared a basic work plan and budget which has been included in the proposed 1986 District budget.

The next two years will also include a survey of commercial/industrial waste generators within the District, to identify potentially harmful wastes and remove them prior to incineration.

BUDGET REPORT

The District's proposed budget for 1986 is \$105,800. As in years past the budget

includes a significant carry-over from 1985 so that only \$49,290 is required to be raised by District taxes. The budget includes a new line item for household hazardous waste collection and the continuation of the public education program begun in 1985.

LOOKING AHEAD TO 1986

Construction on the plant began in late summer with excavation and fill activities. Limited work is expected to continue through the winter with intensified construction to resume in the spring.

District activities will include monitoring construction activities, preparations for and implementation of a household hazardous waste collection day, assisting District towns in preparing transfer systems and the evaluation of an accounting and billing system for District waste. The District will also be participating with other state and local officials in revising the existing state plan for solid waste management, including a revised recycling program.

Respectfully Submitted:
James Dohrman, District Manager

REGIONAL AMBULANCE SERVICE, INC.

ANNUAL REPORT

During Regional's third fiscal year there was a steady growth of the stability of our service. Regionals trip volume was 2,825 up 268 trips from the previous year.

Regional introduced a low cost membership program designed to increase income and provide members emergency ambulance service without being charged for emergency transports within our service area. This program proved to be successful for its first year.

Regional's billing and accounting functions were strengthened by acquiring a computer. Although the entire system is not completed the functions that have been completed have proven to be an asset to our service.

Regionals field equipment was upgraded with a newer ambulance to replace a 1976 ambulance used since the service began in 1983.

In regards to special public services Regional taught numerous C.P.R. classes. Over 300 citizens received instruction on Cardiopulmonary Resuscitation. Regional stayed on standby for numerous public events and all Rutland City working fires.

These and other projects were implemented to provide the citizens of Rutland City with the best cost efficient ambulance service available. The Board of Directors and the Administration of Regional Ambulance Service, Inc. will continue to provide the highest quality emergency ambulance care at the lowest possible cost to all of the citizens served.

Respectfully submitted,
David Melen, President,
Board of Directors
Aldo M. Manfredi,
Rutland City Representative

ANNUAL REPORT — 1985
of the
RUTLAND REGIONAL COMMISSION
A RESOURCE CENTER FOR LOCAL GOVERNMENTS
to the
CITY OF RUTLAND

The past year has been challenging and active. The Rutland Regional Commission has begun or continued a variety of programs to help you find new ways to do more with increasingly limited financial resources.

PAST YEARS EFFORTS

*We implemented a very successful cooperative purchasing program for fuels that has saved some member communities more than they contribute to the Regional Commission.

*We hired a new Staff Planner skilled in data base management and innovative planning and zoning techniques who will be primarily responsible for providing technical assistance to the planning commissions, selectmen and other officers of our member governments.

*Through preparation of a successfully funded Community Improvement Grant, we helped to implement a regional housing program to be run by a locally controlled nonprofit corporation which will provide loans for housing improvements.

*We continued to be a means for local governments to discuss and solve common problems.

*We played a strong role in starting to resolve some of the complex issues related to the building of a bypass around Rutland City.

*We conducted the annual Roger Brown Memorial Award for Outstanding Land Development program.

*We used our access to national networking systems to give you answers to questions on planning, zoning and local management issues.

*We helped communities apply for grants to expand opportunities for commercial revitalization.

*We provided workshops on capital budgeting and programming, agricultural land preservation, and basic zoning and planning issues.

*We began to develop a strategic plan for the Commission to better identify those programs and resources we could best use to assist member communities.

LAST YEAR IN RUTLAND CITY THE REGIONAL COMMISSION

— helped you to get funds for the Rutland West Neighborhood Housing Services program;

— worked with local citizens and officials on issues relating to the southeast bypass;

— involved you with our cooperative fuel purchasing program;

— answered questions from various local officials and citizens on planning and zoning issues.

— began a regional retail market analysis to generate information on the region's potential for new commercial development.

— completed design of the proposed Regional Transit Center and continued to work closely with City officials to obtain construction funding for the Center.

NEXT YEAR'S PROGRAMS

The Rutland Regional Commission's agenda for next year will continue to emphasize expanded local assistance to member communities and to identify and help resolve regional issues.

*We will continue and expand our cooperative purchasing program to save member communities even more.

*We will continue to develop new programs, alternative funding sources and staff abilities so that we can provide more and better services and information.

*We will present additional workshops and training sessions with an emphasis on capital programming and budgeting and land use issues.

*We will continue to expand our information resources and computer assistance to give you the data needed to make informed decisions in local planning and management.

*We will complete the update of the General Plan for the Rutland Region to make it more useful to communities in local planning and growth management programs and in the Act 250 process.

*We will continue to look for funds to develop a computerized land use mapping and development impact analysis program.

*We will actively participate in state programs dealing with growth management and land use to insure that the needs and concerns of the Rutland Region are understood and addressed.

*We will continue to be a forum for regional problems solving and help to develop solutions to such regional issues as the Rutland City bypass and the cumulative impact of growth and development.

Please join us in these efforts in 1986-1987.

VERMONT DEPARTMENT OF HEALTH

Annual Report to the Citizens of Rutland City

The mission of the Vermont Department of Health is the prevention of illness and the control or elimination of hazards dangerous to the health of the public. In working toward this goal, the Health Department has provided, or assured the provision of health services to communities across the state. Direct services are provided through 11 district field offices. During fiscal year 1985, citizens of Rutland City received the following services from the district office in Rutland:

892 pregnant women, new mothers, and children received supplemental foods, health and nutrition services through the WIC program.

246 children and young adults received medical evaluation of individual health and dental status through the Early Periodic Screening, Diagnosis and Treatment program.

241 persons received assessment information and counselling through the Maternal and Child Health program and/or information and teaching of parenting roles through prenatal classes and home visiting services.

46 children received comprehensive health assessments, including preventive guidance, at Well Child Clinics.

Diagnosis and treatment services for orthopedic, hearing, cardiac, genetic, developmental disorders, and other handicapping conditions were provided to 180 children through the Handicapped Children's program and/or the Child Development Clinic in Burlington.

The Public Health Laboratory in Burlington assists in the prevention and control of illness by identifying chemicals and microorganisms in a variety of substances. During fiscal year 1985, the following laboratory services were provided to residents of Rutland City:

413 blood tests to identify women needing immunization against German Measles (Rubella) to prevent birth defects,

343 other diagnostic blood tests,

704 tests of individual and municipal water systems to monitor drinking water quality.

The Dental Division provides services to local communities including installing and maintaining fluoridation equipment in selected community and school water systems, paying for dental treatment of eligible children, and providing dental health education in the schools.

Statewide, the Health Department provided the following services to Vermonters:

140,598 doses of vaccine were administered in Health Department clinics to prevent polio, measles, other childhood diseases, and influenza. 200,447 doses were supplied to private physicians.

16 hospitals, 47 nursing homes, and 43 level III community care homes were inspected and licensed.

6,097 food or lodging inspections were conducted.

1,034 reports of communicable diseases were investigated.

317 gonorrhea cases were interviewed and 348 contacts were traced by Epidemiology field investigators.

452 air, water, and other samples taken in the vicinity of 2 nuclear power reactors were tested for radioactivity, 7 houses were tested for the presence of formaldehyde, and 37 x-ray machines in hospitals, doctors' and dentists' offices were inspected.

83 VOSHA regulatory inspections and 85 voluntary consultative inspections of Vermont industries were conducted.

The Tooth Fairy program provided financial assistance for the dental care of 6,813 children; the Denticaid program provided assistance for 11,232 children.

2,150 persons received screening for early detection of lung diseases through the Barre and other Health Department chest clinics.

6,111 breath and blood alcohol samples were processed by the Laboratory. 11,045 bacteriological and viral cultures were tested.

The Emergency Medical Services program provided support and technical assistance to the state's 93 ambulance services, 53 first responder squads and 16 hospital emergency departments. 598 Emergency Medical Technicians were trained or recertified, and 291 certifications were issued in advanced life support skills.

The Office of the Chief Medical Examiner investigated 734 Vermont deaths, including 188 accidents, 22 homicides, and 99 suicides.

Many services are also provided at the local level by your Town Health Officer, William A. O'Rourke, M.D. Please feel free to call him if you need any assistance. The Health Department provides technical assistance and support to local health officers.

We encourage your participation in our programs. Information about all Health Department services may be obtained by calling our toll-free number 1-800-642-3323, or the Rutland district office at 773-5811.

Roberta R. Coffin, M.D.
Commissioner of Health

MARBLE VALLEY REGIONAL TRANSIT DISTRICT

"The Bus" Annual Report for FY 85

MARBLE VALLEY REGIONAL TRANSIT DISTRICT, "the bus" have just completed our 9th year of service and during the past year have continued to rapidly increase ridership.

During our past year "the bus" has worked to improve service in our community areas in addition to planning for midday and Saturday service to Proctor. Ridership for the year has reached a high of 163,824 passengers for the entire system.

MARBLE VALLEY REGIONAL TRANSIT DISTRICT recently entered into an agreement with Vermont Achievement Center to provide transportation for their students. The Bus is continuing to provide service for "Special Ed" children attending Rutland Public Schools, and schools in the Rutland Central Supervisory Union. In addition to providing transportation for the growing number of children of private individuals within Rutland City and Rutland Town, we continue to transport the Foster Grandparents. The Bus continues to provide transportation for students in Rutland Town who attend Mill River High School or Proctor High School. A new addition for Rutland Town was transportation for a group of children to Cheney Hill kindergarten.

We would like to take this opportunity to thank all taxpayers of our member towns for their tax assessment for the past year. Without this continued support we would be unable to maintain our current level of service.

We would also like to congratulate our dedicated staff for the success in our past fiscal year. The Bus is very fortunate to have such an outstanding group of employees. The Board of Commissioners and the Management of MARBLE VALLEY REGIONAL TRANSIT DISTRICT, "the bus" thank this group for their loyalty and dedication.

Mr. David Melen, Chairman
Board of Commissioners
Mr. Kevin Mullen
Representative, City of Rutland
Ms. GERALYN Shelvey
General Manager

MARBLE VALLEY REGIONAL TRANSIT DISTRICT Board of Commissioners

David Melen, Chairman, Town of Proctor
William Martinez, Vice Chairman-At-Large Member
Mary Keirstead, Secretary-Treasurer, Town of Rutland
Mr. Kevin Mullin, City of Rutland
Mary Pond, Town of Poultney
Dick Daley, Town of West Rutland
David O'Neill, Town of Castleton

Employees of City of Rutland, Vermont

EARNINGS OVER \$300.00

LIST OF UNPAID TAXES AS OF 6/30/86

The list of unpaid taxes is as it appears on the records of the City of Rutland as of 6/30/86 pursuant to 1 V.S.A. Chapter 5 Sub-Chapter 3.

Persons listed are the owner of record as of 4/1 of the year preceding the tax year shown. Subsequent to that date are taxes that are delinquent. The City realizes that transfers may have occurred subsequent to 4/1 and that taxes became due and delinquent and such listed individuals may not be responsible for the amounts indicated.

Amounts shown are taxes only exclusive of interest & penalties.

Legend: A — up for abatement. P — payments being made. * — Paid after 6/30/86.
